

## Client-side Technologies

### Assignment 2 (HTML&CSS)

Make a web page contains a simple form as shown and apply your own style  
Try to implement your style internal and link it from external sheet

The image shows a web browser window with a single tab titled 'Application'. The address bar shows a file path: 'file:///C:/Users/sd-niveen/Desl'. The browser's toolbar includes a back button, an information icon, a search bar with the text 'Search', and several icons for bookmarks, downloads, and navigation. The main content area displays a registration form with a light red background and a dark red border. The form contains the following fields and controls:

- First Name**: A text input field.
- Last Name**: A text input field.
- Password**: A text input field.
- Gender**: A label with two radio button options: **Male** and **Female**.
- Birthday**: A label followed by a dropdown menu labeled '[Select a Month]', and two text input fields for 'dd' and 'yyyy'.
- Interests**: A section header with a dark red underline, followed by six checkboxes arranged in two columns: **Sports**, **Books**, **Fashion** on the left, and **Music**, **Computer Stuff**, **Movies** on the right.
- Submit**: A button at the bottom of the form.
